ahmad.mubarak2398@gmail.com

Kota Tangerang Selatan, Banten,
Indonesia

Passionate Information Systems student at Universitas Pamulang with a strong interest in Web Development, Software Engineering, and Fullstack Development. Experienced in leading web application projects within organizational settings. Proficient in Node.js, React, MongoDB, MySQL, and PHP, with solid skills in Backend Development, Project Management, and Team Collaboration. Fast learner, problem-solver, and eager to contribute as a Software Developer, Backend Engineer, or Fullstack Developer in a dynamic and growth-oriented tech environment.

Work Experience

Fullstack Developer • PT. Sahabat Agro Group

Juni 2025 - Present

- Designed and developed RESTful APIs with Node.js & Express.js, and optimized PostgreSQL schema/queries using TypeORM.
- Built responsive UIs with Next.js, React, Material-UI, and managed state using Redux Toolkit.
- Developed mobile applications using React Native for cross-platform deployment.
- Implemented business logic for plantation performance metrics (BJR, AKP, Yield, Production) with strategy patterns.
- Configured observability stack (Prometheus, Grafana, Loki, Jaeger) for monitoring, logging, and tracing.
- Managed CI/CD pipelines using Docker & Docker Compose; configured Nginx with SSL (Certbot) for secure deployments.
- Collaborated with cross-functional teams and created technical documentation & user guides.
- Conducted unit/integration testing and optimized application performance.

Jurnalistika

Junior Fullstack Developer • PT. Sahabat Jurnalistik Media

September 2022 - Januari 2025

- Developed and maintained a news platform using **Next.js** and **MongoDB**, serving 10K+ monthly users.
- Integrated **Cloudinary** to manage 1.000+ media files, improving load speed by 30%.
- Ensured mobile responsiveness and cross-browser compatibility, increasing user retention by 18%.
- Containerized app environment with **Docker**, reducing setup time by 50%.
- Implemented CI/CD pipelines using **Jenkins** and **GitHub**, enabling weekly deployments with 95% success rate.
- Collaborated with editorial and product teams to launch 10+ new features and streamline publishing workflows.

Koordinator Enumerator • Charta Politika Indonesia

Februari 2023 - Desember 2024

- Led 30 enumerators in collecting data from 1,000+ respondents across 5+ areas.
- Ensured 98% data validity, resolving 50+ field issues.
- Reported findings and observations to supervisors, covering 100% of survey results.

Leader Barista • MOKKA COFFE CABANA

Februari 2018 - Desember 2020

- Managed a team of 3 baristas, ensuring quality service for 100+ customers per shift.
- Trained team in brewing methods and customer service, boosting customer satisfaction by 20%.
- Managed shift schedules and stock coordination, improving coverage and reducing inventory shortages by 10%.

Education

UNIVERSITAS PAMULANG

Sistem Informasi

2019 - 2025

- Relevant courses: Web Development, Database Systems, Software Engineering, Information Systems Analysis & Design
- Actively involved in tech communities and campus projects

Organizational Experience

Chairman of Information Systems Student Association – University of Pamulang

Feb 2022 - Jan 2023

- Led a university-wide student organization with 100+ active members.
- Coordination campus-wide initiatives and represented student interests in administrative discussions.
- Oversaw program planning, budgeting, and team performance.

Chairman of Islamic Student Association (HMI) – Faculty of Engineering Chapter

Apr 2024 - Mei 2025

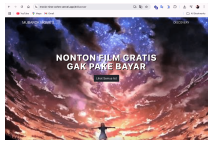

- Directed leadership and intellectual development programs for members.
- Facilitated regular forums, training sessions, and social initiatives.
- Strengthened organizational structure and member engagement.

Head of Research and Development Training Management Body (BPL) – Islamic Student Association (HMI)

Jan 2024 - Mei 2025

- Developed training modules and improved educational materials.
- Conducted impact evaluations to enhance training effectiveness.
- Collaborated with internal trainers and stakeholders to standardize program quality.

Project

BarokMovie – Movie List App with React

- Built using React.js and deployed to Vercel .
- Consumes the IMDb API to dynamically display movie data
- Displays a movie list with a clean, responsive UI
- Utilizes modular components and React state management
- Follows a neat folder structure and clean coding practices
- Demonstrates basic knowledge of modern frontend development and cloud deployment

Sistem Informasi Training HMI

- Built using Express.js, EJS, MongoDB.
- Features: Login/Register, CRUD Peserta, Nilai & Absensi Rekap, Dashboard Admin Implemented
- CI/CD deployment using Render and GitHub Actions

Skill

Technical Skills

 Node.js,  React,  Express.js,  Next.js,  Laravel,  MongoDB,  MySQL,  Git,  Figma, 
CI/CD (GitHub Actions),  Docker

Programming Languages

 JavaScript,  TypeScript,  PHP.

Language

-  English — Menengah
-  Arabic — Lancar
